These translations were developed by Commander Mike Beidler, USN. Mike added in bold which part of the word or phrase has the accent or emphasis when pronounced.

Instructions for printing:

A preferred paper to use would be #64 cardstock (available at office and art supply stores). This gives the flashcards some thickness so the translations aren't visible through it. They are also more durable. If these are not concerns just use regular paper.

This file has 24 pages. The first 12 are all of the Farsi words in columns A-C. Select and print these pages first.

The next 12 pages are all of the English translations in columns D-F. Take the first 12 pages and feed them, one page at a time if necessary, so Page 1 has Page 13 on its reverse.

You may want to just print Page 1 first and then select Page 13 to be printed next to see

how you have to feed Page 1 in.

It is **NOT** recommended that you print all of the first 12 pages and then just load them into your printer. They may wind up out of order, that is, Page 24, not Page 13, may print on the back of Page 1.

Each card is numbered so as a quality check Farsi and English on the same sheet.
If not, start over.
