Instructions for printing:

A preferred paper to use would be #64 cardstock (available at office and art supply stores). This gives the flashcards some thickness so the translations aren't visible through it. They are also more durable. If these are not concerns just use regular paper.

This file has 18 pages that will print up 7 sheets of flashcards. The first 9 pages are all of the English words in columns A-C. Select and print these pages first.

The next 9 pages are all of the Baluchi translations in columns D-F. Take the first 9 pages and feed them, one page at a time if necessary, so Page 1 has Page 10 on its reverse.

You may want to just print Page 1 first and then select Page 10 to be printed next to see how you have to feed Page 1 in.

It is NOT recommended that you print all of the first 9 pages and then just load them into your printer. They may wind up out of order, that is, Page 18, not Page 10, may print on the back of Page 1.

Each card is numbered so as a quality check you should have the first 15 cards in Baluchi and English on the same sheet.

If not, start over.

Any blank cards at the end of the file are for you to create your own cards for words and phrases you happen to hear.
