These translations were taken from the Defense Language Institute's Familiarization Module website (<http://fieldsupport.dliflc.edu/index.aspx>).

Instructions for printing:

A preferred paper to use would be #64 cardstock (available at office and art supply stores). This gives the flashcards some thickness so the translations aren't visible through it. They are also more durable. If these are not concerns just use regular paper.

This file has 86 pages that will print up 43 pages or sheets of flashcards. The first 43 pages are all of the English words in columns A-C. Select and print these pages first.

The next 43 pages are all of the Swahili translations in columns D-F. Take the first 43 pages and feed them, one page at a time if necessary, so Page 1 has Page 44 on its reverse.

You may want to just print Page 1 first and then select Page 44 to be printed next to see how you have to feed Page 1 in.

It is NOT recommended that you print all of the first 43 pages and then just load them into your printer. They may wind up out of order, that is, Page 86, not Page 44, may print on the back of Page 1.

Each card is numbered so as a quality check you should have the first 15 cards in Swahili and English on the same sheet.

If not, start over.

Any blank cards at the end of the file are for you to create your own cards for words and phrases you happen to hear.
